

CASCADE

## THE NEW WAVE

The Cascade collection from MTS seating is the new wave in stackable seating. Offering superior support with a fully upholstered, contoured, compound curved wood shell, the Cascade collection features the MTS original COMFORTweb® seat and a passive ergonomic COMFORTflex® back with lumbar support that flexes naturally with the movement of the seated patron. Constructed with a steel frame engineered to stack up to 10 high, the Cascade comes standard with the industry best, MTS 12-year structural warranty.

## FEATURES

COMFORTweb® seat provides exceptional comfort for extended seating. A luxurious layer of COMFORTmode® foam supported by alternating flexible rubberized polypropylene stretchband material delivers responsive, reliable comfort.

MTS Premium Metal-Based Glides feature nickel-plated, polished steel bases that enhance the ability of the chair to slide across carpet and hard surfaces. The glides also include protective rubber cushions for greater stacking resilience.

The ergonomically designed Cascade Series features a built-in lumbar support, offering improved spinal support which results in reduced back fatigue even during extended seating periods.

A passive COMFORTflex® seating system is inherently built-in to all the Cascade Series chairs. Utilizing the natural strength and flexibility of the contoured, compound curved wood shell, the Cascade Series is one of the most comfortable stackers on the market.

A built-in pillow back (Standard on CF5701-PB and CF5701-PBTT) provides even more comfort by adding extra support. (Two-tone fabric shown – specify TT after model number.)

Models CF5701-HCI (horizontal channels) and CF5701-VCI (vertical channels) feature sewn-in channels to create a distinctive retro-look.

## OPTIONS

With the ProBax® Option, users will experience more comfort through a reduction in pressure on the spine and muscle fatigue in the back. It's technology that translates into proven health benefits and more sustained alertness over time.

Optional Retractable Formed Gangers slide under the seat and out of sight when not in use.

An optional handhold is available on all Cascade models, allowing for easier storage and handling.

# Sit Green.

It's not just a seat. It's a style.
