MTS Custom Stain Capability

MTS maintains its own, in-house custom stain matching program and knowledgeable professionals to match almost any color with our custom, eco-friendly water-based stains.

This combination of capabilities and expertise enables MTS to respond to your custom stain requirements easily and quickly. By manufacturing both chairs and tables at our facility, we can ensure the consistency of the color in both. This ensures that the end result is a perfect color match for your installation.

Our unique water-based stains offer a full spectrum of pigment options as well as unmatched depth of color to ensure the right result for every customer request. This unique capability enables MTS to provide you with original color tones that assures the woods natural grain definition will be highlighted on the final product.

In addition to our eight standard MTS wood stains, an unlimited range of custom stains are also available to meet your vision. In fact, MTS has used its custom stain matching capability in more than 120 different applications for customers in every facet of the hospitality market.
