

## STACKING BECOMES COOL

Designed by Josh Swy, the Catalyst Collection is guaranteed to generate a major reaction. Stackable up to 10 high, the Catalyst features a unique tapered square frame with sweeping back legs that complements the gentle arch of the compound curved flexing back. The Catalyst is a true break from tradition.

# CATALYST

## FASHION MEETS FUNCTION

The Catalyst Collection offers dramatic features not found in other stack chair collections. The tapered seat has a cantilevered front that offers a lighter, streamlined appearance and custom back shapes and upholstery options are available, including three-dimensional overlays on all models.

The optional MTS COMFORTgrip® hand-hold offers easy handling of Catalyst models. (Not available on top-rail handgrip models.)

### Specifications
